

Health and Safety Policy

In accordance with the Safety, Health and Welfare at Work Act 2005, it is the policy of the Waterford & Wexford Education and Training Board (WWETB) to ensure, so far as is reasonably practicable, the safety, health and welfare at work of all staff and to protect students, learners, visitors, contractors and other persons on our premises from injury and ill health arising from any work activity. The successful implementation of this policy requires the full support and active co-operation of all staff, contractors and visitors to our buildings.

To achieve our safety, health and welfare objectives, WWETB uses the combination of a Corporate Safety Statement together with a workplace site specific standardised Safety Statement to detail the overall approach to the management of health and safety across our organisation.

It is recognised that hazard identification, risk assessment and control measures are legislative requirements which must be carried out by the employer to ensure the safety, health and welfare of all staff.

WWETB, as employer, undertakes in so far as is reasonably practicable to:

- a) promote standards of safety, health and welfare that comply with the provisions and requirements of the Safety, Health and Welfare at Work Act 2005 and other relevant legislation, standards and codes of practice;
- b) provide information, training, instruction and supervision where necessary, to enable staff to perform their work safely and effectively;
- c) maintain a constant and continuing interest in safety and health matters;
- d) continually improve the system in place for the management of occupational safety and health and review it periodically to ensure it remains relevant, appropriate and effective;
- e) consult with staff on matters related to safety, health and welfare at work;
- f) provide the necessary resources to ensure the safety, health and welfare of all those to whom it owes a duty of care, including staff, pupils, contractors and visitors.

WWETB is committed to playing an active role in the implementation of this occupational safety and health policy and undertakes to review and revise it in light of changes in legislation, experience and other relevant developments.
