1. Message from the Chairperson of Waterford and Wexford Education and Training Board

As Chairperson of WWETB, I am delighted to present the 2022 Annual Report for WWETB. The Report outlines the progress achieved as we emerged from the Covid-19 global pandemic.

As 2022 was the last year of the Strategic cycle for WWETB, we engaged extensively with our stakeholders to help us to define our Strategy Statement for 2023-2027. As a result of this consultation, our partnerships and collaborations continue to get stronger and we focus on embedding WWETB into the communities that it serves.

WWETB has remained committed to the principle of placing the learner at the heart of everything it does. Staff across WWETB are to be commended for their dedication in ensuring that students and learners receive the best possible education and training opportunities. We continue to invest in the upgrading of buildings and infrastructure to ensure that our students and learners have access to the best possible facilities.

I wish to express my deeply felt gratitude to my colleagues and members of the Waterford and Wexford Education and Training Board, to our staff and the multitude of stakeholders who have contributed to our organisation over the past 12 months. This Annual Report gives us an opportunity to look back and to reflect on our achievements. However, we are very much looking forward too and we welcome the opportunities that will come our way over the next 12 months.

2. Message from the Chief Executive of WWETB

2022 began with some better news around the Covid-19 pandemic with some significant removals of government public health restrictions. This was good news for students, adult learners, and staff of WWETB who had continued to provide access to education and training throughout the previous two years despite the very significant restrictions around social distancing, etc. The 2022 Annual Report gives a good indication of how WWETB re-bounded immediately and reacted in a positive way to this improved situation and by the time the new academic year began in September, we were very much back to 'business as usual' mode. The first in-person Leaving Cert since 2019 was one of the first big national statements of a return to normality.

2022 was also the final year of the first ever 5-year WWETB Strategic Statement 2018-2022. The implementation of this plan continued apace, and it was great to see that the plan had been substantially implemented along with many other positive outcomes, some driven by the necessities of the pandemic particularly around IT improvements, digital learning/technology enhanced learning, blended learning and work practices including a significant number of non-frontline staff availing of 'work from home' opportunities. Many other initiatives were driven by innovative staff in schools, FET centres and offices across both counties.

Section 28 (1) of the Education and Training Boards Act 2013 requires the following:

Each Education and Training Board shall, not later than 30 June in each year, prepare, adopt, and submit to the Minister a report in relation to the performance of its functions during the year immediately preceding the year in which the report is submitted, and the Minister shall, as soon as may be after receiving the report, cause copies of the report to be laid before each House of the Oireachtas.

The Annual Report 2022 specifically sets out how the following 5 strategic goals from the Strategic Statement were implemented during the year:

- 1. High Quality Education and Training Programmes
- 2. Development of Organisation Services
- 3. Our People Working Together
- 4. Partnership and Collaborations
- 5. Communications

2022 saw the very significant roll-out of the ETB Ethos Framework across our schools and the embedding of that Ethos through the better understanding of students and staff alike of the Core Values for ETB schools of Excellence in Education, Care, Equality, Community and Respect. The work of the Directorate of Schools Team, School Senior Management, Ethos Co-ordinator, and the School Ethos Teams contributed enormously to the embedding of our School Ethos within our schools. This will now grow and grow over the years enhancing the sense of pride we have in our schools and the opportunities that students in our community are given in the state managed, multi-denominational, co-educational environment in which they learn.

Significant progress was made in enhancing further education and training (FET) facilities in 2022 in particular with the commencement of a new Wexford College of Further Education and Training, a college which is aligned with the SOLAS strategy around the 'College of the Future' model and the development of a major new apprenticeship facility adjacent to the present Waterford Training

Centre, increasingly putting WWETB at the forefront of the national response to the requirement to increase national craft apprenticeship numbers.

Music Generation as an education partnership with the local authorities in both counties continued to flourish and in 2022, we started to see our young musicians perform and flourish not just on the local stages but also on the national and international stages.

At organisation level, the WWETB Senior Management Team, Schools Senior Leadership Network, Further Education and Training (FET) Management Team and Executive Operations Team led the organisation at executive level across schools, FET centres and Offices. Once again, these groups provided highly effective leadership and management for WWETB.

We continued to partner and collaborate locally with so many local/regional authorities, state agencies, higher education, community and voluntary groups, the business sector, youthwork groups to list but some. We know that this collaboration will work to the benefit of our students/adult learners, and we strive to continually improve and strengthen these relationships.

We are grateful to our main funders including the Department of Education, SOLAS, Department of Further and Higher Education, Research, Innovation and Science and Department of Children, Equality, Disability, Innovation and Youth who worked to ensure that we had the resources to implement national policy at local level. We acknowledge very much the support of parents/guardians who put their trust in us to educate their sons and daughters and it is so important to us that we live up to that huge responsibility on a daily basis.

In conclusion, thanks to the Board of WWETB led by Chairperson Cllr. Barbara-Anne Murphy and Deputy Chairperson Cllr. Lola O'Sullivan for their constant expert oversight, support, and dedication. Thanks also to our many committees and Boards of Management without whom we could not operate and to the Senior Management Team and our staff for all you do.

Strategy Statement

Our Strategy Statement, which was approved by the Board of WWETB in May 2018, informed and guided the main areas for future planning within WWETB for the period 2018-2022. The Strategy Statement was developed following a comprehensive consultation process (with a wide range of internal and external stakeholders) involving the Board of WWETB, boards of management, staff, students, parents/guardians, adult learners, business and economic interests, employers, local authorities, third level institutes and other interested parties (see Executive Summary in Strategic Plan). The consultation process clearly demonstrated that staff and stakeholders are working towards a common goal - the development of an inclusive and supportive environment for students and learners to help them to reach their full potential. The principles of integrity and equality in our work and our dealings with stakeholders are key to achieving our vision. Fundamentally, we believe that there is a path to learning for all and that the educational experience should be transformative for students and learners. We are in the process of developing our new Strategy Statement for 2023-2027. This plan will be brought to the Board of WWETB in January 2023 for approval.
